WESTERN DISTRICT OF NEW YORK

MOOG INC.,

Plaintiff,

v.

Case No.: 1:22-cv-00187

SKYRYSE, INC., ROBERT ALIN
PILKINGTON, MISOOK KIM, and DOES NOS.
1-50,

Defendants.

**MOOG INC.'S RESPONSES TO DEFENDANT SKYRYSE, INC.'S FIRST SET OF
(EXPEDITED) REQUESTS FOR PRODUCTION**

Pursuant to Federal Rule of Civil Procedure 34, and the March 17, 2022

Stipulation and Order Re: Expedited Discovery (ECF 33, 36), plaintiff Moog Inc. ("Moog") hereby responds and objects to Defendant Skyrise, Inc.'s ("Defendant") Requests for Production ("Requests"). Moog reserves the right to supplement or amend its objections and responses should additional information come to its attention through discovery or otherwise.

PRELIMINARY STATEMENT

These responses are made solely for the purposes of this action. Each response is subject to all objections as to competence, relevance, materiality, propriety and admissibility, and to any and all other objections on any grounds that would require the exclusion of any statements contained in these responses if such a request were asked of, or statements contained in the response were made by, a witness present and testifying in court, all of which objections and grounds are expressly reserved and may be interposed at the time of trial.

Discovery is ongoing and expert reports have not yet been prepared.

Accordingly, Moog reserves the right to change, amend or supplement any or all of the matters contained in these responses as additional facts are ascertained, analyses are made, research is completed and contentions are made.

Objections to Defendant's First Set of Requests for Production are made on an individual basis below. Moog's response to each Request for Production is submitted without prejudice to, and without in any way waiving, the General Objections listed below, but not expressly set forth in that response. The assertion of any objection to a Request for Production in any response below is neither intended as, nor shall in any way be deemed, a waiver of Moog's right to assert that or any other objection at a later date.

GENERAL OBJECTIONS

1. Moog objects that Defendant's First Set of Requests for Production are not consistent with the Federal Rules of Civil Procedure, not warranted by existing law or a good faith argument, interposed for an improper purpose such as to harass Moog and/or cause unnecessary delay and/or needlessly increase the cost of litigation, and is unreasonable, unduly burdensome and expensive.

2. Moog objects to Defendant's First Set of Requests for Production and to each Request on the ground that it is premature and Moog is still in the process of formulating its contentions. Accordingly, Moog reserves the right to amend, supplement or modify its responses to these Requests as further information becomes available and is analyzed by Moog.

3. Moog conducted a diligent search and a reasonable inquiry in a good faith effort to be responsive to Defendant's Requests. As discovery is ongoing, however, Moog reserves the right to make use of, or to introduce at trial, any documents responsive to the Requests, but

discovered subsequent to the date of production, including, but not limited to, any documents obtained in discovery or through further investigation.

4. Moog objects to the Requests to the extent they seek information not reasonably calculated to lead to the discovery of admissible evidence, outside the scope of the Stipulation and Order Re: Expedited Discovery (ECF 33, 36), not relevant to the issues to be decided in Moog's Motion for Preliminary Injunction, or they impose any duty or obligation greater than that provided for in the Federal Rules of Civil Procedure, including Rules 26 and 34, or the Local Rules of the Western District of New York. Moog shall not comply with any purported obligation not imposed by law.

5. Moog objects to the Requests to the extent they seek, or may be interpreted to seek, information or documents protected by the attorney-client privilege, the attorney work product doctrine, and/or any other applicable privilege or restriction on discovery. To the extent that any such information or documents are inadvertently produced, such production shall not waive nor signify intent to waive these respective privileges.

6. Moog objects to the Requests to the extent they seek information or documents already within Defendant's possession, already known or disclosed to Defendant, or which is equally available to Defendant.

7. Moog objects to the Requests to the extent they are vague and ambiguous or so unintelligible that Moog cannot respond.

8. Moog objects to the Requests to the extent they are overbroad. An objection that the Request is "overbroad" means that the Request seeks, in substantial part, information or

documents that are not relevant to the claim or defense of any party of the pending action or do not appear reasonably calculated to lead to the discovery of admissible evidence.

9. Moog objects to the Requests to the extent they are unduly burdensome. An objection that the Request is “unduly burdensome” means that the Request is unreasonably cumulative or duplicative, seeks information or documents that are publicly available or are available from some other source that is more convenient, less burdensome or less expensive, or the burden or expense of the discovery outweighs its benefits.

10. Moog objects to the Requests to the extent they seek confidential, proprietary, or sensitive business information, or information otherwise protected by law. Such information, to the extent it is not privileged or otherwise objectionable, will be provided only in accordance with the a Stipulated Protective Order entered by the Court and, to the extent necessary, a source code protocol agreed upon between the parties.

11. Moog objects to the definition of “You,” “Your,” “Plaintiff” or “Moog” contained in Definition No. 1 on the ground that it is broader than permitted by Local Rule 26(c)(3) because it includes “agents . . . affiliates, principals, and/or representatives, individually or collectively, and any other legal entities owned or controlled, directly or indirectly, by any of the foregoing, including attorneys and all persons acting on its behalf or under its control.” Moog will use the definition contained in Local Rule 26(c)(3)(E).

12. Moog objects to the definition of “Communication” or “Communications” on the grounds that it is broader than permitted by Local Rule 26(c)(3) and includes Defendant’s interpretation of the definition provided by the Court. Moog will use the definition contained in Local Rule 26(c)(3)(A).

13. Moog objects to the definition of “Document” on the grounds that it is broader than permitted by Local Rule 26(c)(3) and includes Defendant’s interpretation and expansion of Federal Rule of Civil Procedure 34(a)(1)(A). Moog will use the definition contained in Local Rule 26(c)(3)(B).

14. Moog objects to the definition of “Former Moog Employee” on the grounds that it is vague, ambiguous, and calls for information outside of Moog’s possession, custody or control. Moog will construe “Former Moog Employee” to mean any former employee, consultant, or contractor of Moog that Moog knows has become or will become an employee, consultant, or contractor of Skyrise, including the employees identified in paragraph 91 of the Complaint.

15. Moog objects to the definition of “Person” on the grounds that it is broader than permitted by Local Rule 26(c)(3)(F). Moog will use the definition contained in Local Rule 26(c)(3)(F).

16. Moog objects to Definition No. 19 on the grounds that it is broader than permitted by Local Rule 26(c)(3)(F). Moog will use the definition contained in Local Rule 26(c)(3)(F).

17. Moog objects to Definition No. 20 on the grounds that it is broader than permitted by Local Rule 26(c)(3)(E). Moog will use the definition contained in Local Rule 26(c)(3)(E).

18. Moog objects to the “Definitions” and “Instructions” sections of the Requests to the extent they purport to impose discovery burdens on Moog greater than the obligations imposed by the Federal Rules of Civil Procedure and the local rules of the United States District Court for the Western District of New York. Moog will respond and object to the Requests in

accordance with the Federal Rules of Civil Procedure and the local rules of the United States District Court for the Western District of New York.

19. Moog objects to Instruction No. 22 on the grounds that the time period of January 1, 2007 to present is overbroad and well beyond the scope of the claims and defenses in the Complaint. Indeed, Defendant was not formed until 2016.

20. Each of the foregoing General Objections is incorporated fully into each individual response that follows. The stating of a specific objection or response shall not be construed as a waiver of Moog's General Objections.

SPECIFIC OBJECTIONS AND RESPONSES TO REQUESTS FOR PRODUCTION

Moog objects to this request on the grounds that it seeks information or documents not relevant to any party's claim or defense nor proportional to the needs of the case

Moog objects to this request on the grounds that it is overbroad and unduly burdensome, specifically the request for all Documents and Communications "referencing" Pilkington and Kim.

Moog objects to this request on the grounds that it seeks information or documents outside of Moog's possession, custody or control, specifically any personal communications between Pilkington and Kim or referencing them.

Subject to, and without waiving any of the foregoing objections, Moog responds as follows: Moog will produce non-privileged documents responsive to this request in its possession, custody or control that could be located following a reasonable and diligent search.

REQUEST FOR PRODUCTION NO. 5:

All Documents and Communications relating to any confidentiality obligations owed to You by Your employees, Your customers, and/or Your suppliers, including, without limitation, Your efforts to investigate compliance with, and enforcement of, those confidentiality obligations.

RESPONSE TO REQUEST FOR PRODUCTION NO. 5:

Moog incorporates by reference the Preliminary Statement and General Objections as though fully set forth herein.

Moog objects to this request on the grounds that it seeks information or documents not relevant to any party's claim or defense nor proportional to the needs of the case. Specifically, any confidentiality obligations owed by Moog to its customers or suppliers are not at issue in this case.

Moog objects to this request on the grounds that it seeks information or documents outside the scope of Moog's Motion for Preliminary Injunction and/or the Stipulation Re: Expedited Discovery (ECF 33, 36), including but not limited to information or documents regarding any confidentiality obligations owed by Moog to its non-relevant customers or suppliers.

Moog objects to this request on the grounds that it is overbroad and unduly burdensome. Moog is a publicly traded company with tens of thousands of employees, customers, and suppliers. Any confidentiality obligations owed by Moog to its customers or suppliers are not at issue in this case.

RESPONSE TO REQUEST FOR PRODUCTION NO. 6:

Moog incorporates by reference the Preliminary Statement and General Objections as though fully set forth herein.

Moog objects to this request on the grounds that it seeks information or documents not relevant to any party's claim or defense nor proportional to the needs of the case. Specifically, Moog's source code unrelated to its flight control software is not at issue in this case.

Moog objects to this request on the grounds that the term "third party" is vague, ambiguous, and undefined.

Subject to, and without waiving any of the foregoing objections, Moog responds as follows: Moog will produce non-privileged documents sufficient to demonstrate the restricted manner and scope in which its trade secrets at issue in this case have been disclosed to third parties in its possession, custody or control that could be located following a reasonable and diligent search.

REQUEST FOR PRODUCTION NO. 7:

All agreements between You and any Former Moog Employee, including but not limited to employment, confidentiality, and intellectual property agreements with Pilkington and/or Kim.

RESPONSE TO REQUEST FOR PRODUCTION NO. 7:

Moog incorporates by reference the Preliminary Statement and General Objections as though fully set forth herein.

RESPONSE TO REQUEST FOR PRODUCTION NO. 8:

Moog incorporates by reference the Preliminary Statement and General Objections as though fully set forth herein.

Moog objects to this request on the grounds that it is overbroad and unduly burdensome. Moog's Trade Secrets include tens of millions of lines of source code developed over fifteen years. Moog objects to this request on the grounds that it calls for information or documents protected by the attorney-client privilege, the attorney work product doctrine, third-party privacy rights, as well as confidentiality and proprietary rights.

Moog objects to this request on the grounds that it seeks information or documents outside the scope of Moog's Motion for Preliminary Injunction and/or the Stipulation Re: Expedited Discovery (ECF 33, 36), including but not limited to information or documents regarding Moog's claim for tortious interference with prospective economic advantage.

Moog objects to this request on the grounds that it is vague, ambiguous, and compound.

Subject to, and without waiving any of the foregoing objections, Moog responds as follows: Moog will produce any communications with actual or prospective customers regarding the security breaches alleged in Moog's Complaint in its possession, custody or control that could be located following a reasonable and diligent search.

Moog objects to this request on the grounds that it calls for information or documents protected by the attorney-client privilege, the attorney work product doctrine, as well as confidentiality and proprietary rights.

Moog objects to this request on the grounds that it is redundant, compound, overbroad and unduly burdensome. Moog's Trade Secrets include tens of millions of lines of source code and other documents.
